

TECHNICAL DATA

TRIBALOY™ T-400 ALLOY

TRIBALOY™ COBALT-BASED ALLOYS consist of a hard, intermetallic (Laves) phase dispersed in a softer matrix of eutectic or solid solution. They exhibit outstanding resistance to wear and galling, high corrosion resistance and are particularly suitable where lubrication is a problem. Wear resistance of Tribaloy™ alloys is highly dependent on the volume percentage of Laves phase.

TRIBALOY™ T-400 combines excellent mechanical wear resistance with good corrosion resistance. T-400 contains hard intermetallic phases of Mo and Si which impart excellent surface properties over a wide temperature range. Often used in similar applications to Stellite™ 12 or Stellite™ 1. T-400 exhibits outstanding resistance to galling and corrosion.

CORROSION RESISTANCE

T-400 shows excellent corrosion resistance in Acetic Acid (concentration 50%, boiling) and in Formic Acid (concentration 45%, boiling). Also in Phosphoric Acid (concentration 85%, 66°C) excellent corrosion resistance has been observed.

NOMINAL CHEMICAL COMPOSITION (MASS%)

ALLOY	Co	Cr	Mo	C	Si	Others
T-400	Bal.	8,5	28,5	<0,1	2,6	Ni, Fe

PHYSICAL PROPERTIES

ALLOY	Hardness	Density	Melting Range
T-400	48 - 58 HRC	~ 8,9 g/cm ³	~ 1290 – 1340 °C

NOMINAL HOT HARDNESS (HV resp. DPH) AS CAST

20 °C	100 °C	200 °C	300 °C	400 °C	500 °C	600 °C	700 °C
680	665	660	650	620	585	495	385

EXAMPLE FOR TENSILE PROPERTIES AT ROOM TEMPERATURE

PRODUCT FORM	Ultimate Tensile Strength Rm	Yield Stress Rp (0,2%)	Elongation A
Investment Casting, As cast	~ 690 MPa	N.A.	<< 1%

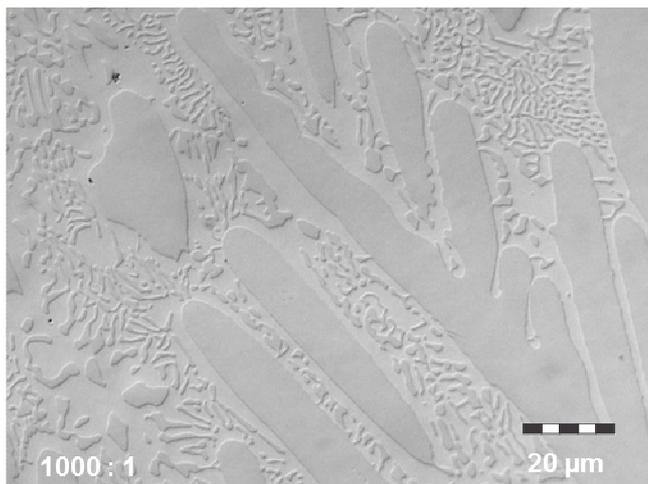

PRODUCT FORMS

Components			
Castings	Cladded / Hardfaced	PM / HIP parts*	ALM parts*

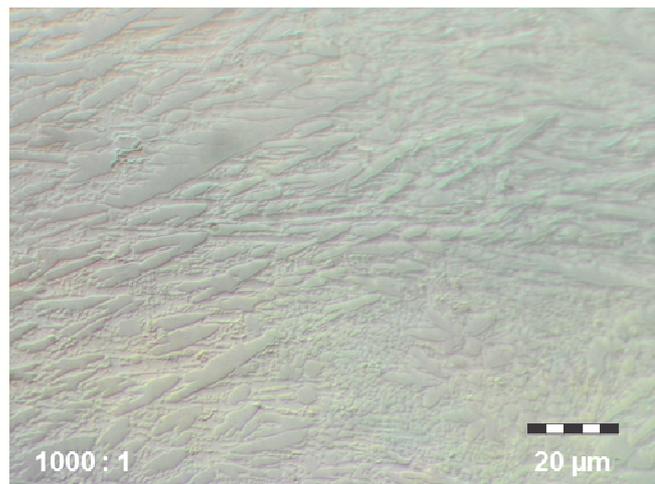

* On special request.

Consumables for Cladding / Hardfacing and Additive Layer Manufacturing (ALM)				
Rods	TIG-Welding		Oxy-Acetylene Welding	
Powder	PTA Cladding	Laser Cladding	HVOF Spraying	ALM

TYPICAL STRUCTURES

Casted T-400 Alloy (Investment Casting)

Selective Melted T-400 Alloy (Electron Beam Melting)

Deloro Wear Solutions GmbH manufactures and markets sophisticated alloys in the form of castings, powders, coatings, consumables, and machined parts that resist wear, corrosion, and abrasion. Information provided in this document is intended only for general guidance about Deloro Wear Solutions™ products and is the best information in our possession at the time. Product users may request information about their individual use of our products, but Deloro Wear Solutions™ does not warrant or guarantee this information in any way. Selection and purchase of Deloro Wear Solutions™ products is the sole responsibility of the product user based on the suitability of each use. Individual applications must be fully evaluated by the user, including compliance with applicable laws, regulations, and non-infringement. Deloro Wear Solutions™ cannot know or anticipate the many variables that affect individual product use and individual performance results may vary. For these reasons, Deloro Wear Solutions™ does not warrant or guarantee advice or information in this document, assumes no liability regarding the same, and expressly disclaims any warranty of any kind, including any warranty of fitness for a particular purpose, regarding the same.
